

Jamar
Guardians: Melvin and Rhonda

In regards to Jamar, born on 11/23/1993, he is a 12 year old in grade 6 at Urbana Middle School. Jamar attended 30 session reading groups, which consisted of fifteen 90 minute sessions focused on reading comprehension, word attack, and language usage. I feel these sessions were valuable lessons for Jamar. Before attending reading group Jamar could not read a book and couldn't efficiently sequence the main events of readings. He was also scoring poorly on many book reports. On completion of the reading sessions Jamar is able to write well developed book reports and any reader can now easily distinguish well developed main points within his reports. I feel this was a valuable tool for his learning experience and I highly recommend the reading group to any other parents with children struggling in the areas of reading comprehension. I want to especially thank Cathy Hardison for her hard work and dedication for helping Jamar improve his reading comprehension skills.

SincerelyYours,
Melvin and Rhonda
